Compliance curriculum - For Insurance

Introduction

In Luxembourg's dynamic and highly regulated financial environment, effective compliance is a critical pillar of sustainable business and sound governance. Against a backdrop of evolving regulatory expectations at both national and European levels, Compliance Officers and Chief Compliance Officers must continuously strengthen their technical expertise, oversight capabilities, and strategic advisory role.

PwC Academy, in close collaboration with PwC's subject matter experts, has developed a comprehensive training curriculum dedicated to compliance professionals operating in Luxembourg. This 'pick & choose' curriculum is designed to support Compliance Officers and Chief Compliance Officers in addressing the increasing complexity of regulatory requirements, supervisory expectations, and operational challenges affecting regulated entities.

Your reasons why

Gain deeper expertise on various topics relevant to insurance companies' activities.

Navigate and understand the regulatory framework and legal requirements for insurance companies.

Navigate the complex landscape of insurance companies' governance and compliance.

Identify opportunities to improve internal organisational processes.

Obtain a sufficient level of factual consideration to make informed business decisions.

Comply with the latest regulatory developments relevant to the Luxembourg market.

Description

The curriculum is organised by subject to meet the varied training requirements of compliance professionals. It features essential modules relevant to compliance professionals of insurance companies.

The programme combines expert-led modules and digital learning solutions to deliver an optimal and flexible learning experience. It covers, with the support of PwC specialists, key regulatory frameworks, latest regulatory developments, and practical implementation considerations relevant to the Luxembourg market.

Made of complementary and modular building blocks, our curriculum will help you identify the best learning experience for you and your teams. They are proposed as comprehensive training programmes, but individual training modules can also be selected as standalone courses to meet specific needs. PwC Academy can help you create a customised pathway to align with your objectives.
