# Artificial Intelligence: Revolution or Fad?

## Duration

- 1 hour

## Language

- FR, EN

## Goals

### Know

- What AI is and isn't
- The current AI landscape
- The different types of AI systems

### Able to

- Decide which AI system to choose based on their current tech stack

### Attitude

- Have a more realistic vision about the world of AI

## Prerequisites

- Zoom version 5 or later

## Educational content

- AI: Definition, genesis & landscape
- The purpose of AI
- Two AI approaches
- How AI systems are designed
- Ways to categorise AI
- The different types of AI systems
- AI vs. Robotics

# The Do's & Don'ts of AI and ChatGPT

## Duration

- 2 hours

## Language

- FR, EN

## Goals

### Know

- The current Large Language Model landscape
- The strengths & weaknesses of LLMs

### Able to

- Craft effective prompts for ChatGPT and other LLMs
- Decide which LLM to choose based on their current tech stack

### Attitude

- Be more adventurous and confident with LLMs

## Prerequisites

- Zoom version 5 or later
- Either a ChatGPT or Google or Microsoft account

## Educational content

- AI & LLM definition
- AI & LLM landscape
- How LLMs are created
- Strengths & weaknesses of LLMs
- Keys to effective prompting
- Multimodality & reasoning

# Unlock the Power of Generative AI

## Duration

- 3 hours

## Language

- FR, EN

## Goals

### Know

- What Generative Artificial Intelligence is and is not
- The strengths & weaknesses of Large Language Models (LLMs)
- The Generative AI tools landscape beyond LLMs

### Able to

- Craft effective prompts for ChatGPT and other LLMs

### Attitude

- Be more adventurous and confident with LLMs

## Prerequisites

- Zoom version 5 or later
- Either a ChatGPT or Google or Microsoft account

## Educational content

- The World of AI
  - Definition, genesis & landscape
  - The purpose of AI
  - Two AI approaches
  - How AI systems are designed
  - Ways to categorise AI
- LLMs & ChatGPT
  - Definition & landscape
  - How LLMs are created
  - Strengths & weaknesses
  - Keys to effective prompting
  - Multi-modality & reasoning
- Other Gen AI use cases
  - Images & videos
  - Transcriptions & speech generation
  - Music & audio generation
  - Code generation & programming assistance
