Finance for Managers

*An Essential Toolkit for Financial
Management*

Three blocks of training modules

www.sagora.eu

Training Modules in Corporate Finance

Our “Finance for Managers” training series is an essential toolkit for financial management, carefully designed to empower managers, business owners, company directors, and aspiring entrepreneurs with essential financial acumen. Financial management is crucial for effective leadership, decision-making, and business growth. Whether you’re looking to strengthen your company’s financial health, analyse potential investment opportunities, or guide strategic acquisitions, this training series provides you with a robust foundation to navigate the complexities of modern finance.

For Whom ?

This modular, flexible training programme is designed for active professionals needing to master the analytical mechanisms of company finance. Whether you are a decision-maker, director or manager involved in the strategic decisions impacting your company’s future, or a professional seeking to set off on their entrepreneurial adventure with total peace of mind, this training programme will provide you with the necessary tools for success.

Why Choose Sagora ?

Our methodology places the participant at the heart of the learning process. It aims to boost learners' **autonomy** through **rigorous**, **relevant** and **interactive** training courses whose lessons are directly **applicable**, while keeping a **critical eye** on the results processed by the learners.

Moreover, Sagora is INFPC certified, giving Luxembourg-based companies the opportunity of benefiting from substantial co-financing of their employee training activities via **Luxembourg Lifelong Learning**.

For more information or to register directly online to one of our trainings, consult our website **www.sagora.eu** or contact us at **formations@sagora.eu**.

A.

Financial Diagnosis, Planning and Reporting

Build your basics of financial management and put them into practice

This training block will help you understand financial statements, manage cash flow effectively and make informed decisions through better cost analysis.

MODULE 1

Financial Diagnosis and Planning

Master the basics of financial management and put them into practice.

Learn how to analyse financial statements to better manage your company's resources, and how to present your figures clearly.

 April 2, 3 and 4, 2025  Mathias Schmit

MODULE 2

Budgeting & Financial Planning in Excel

Master budgeting tools.

Learn how to use Excel to model your company's finances, manage your budget and plan with precision.

 April 24 and 25, 2025  Ghadi Kahil

MODULE 3

Management Control & Cost Analysis

Understand and control your costs effectively.

Learn how to identify the different types of costs and how they influence business performance.

 May 15 and 16, 2025  Benjamin Lorent

B.

Project and Company Valuation

Develop your investment decision-making skills

Learn how to evaluate different projects, choose strategic investments and prepare for your decision-making meetings with investors.

MODULE 4

Investment Criteria and Decision-Making

Make informed investment decisions.

Find out how to compare projects and choose the most profitable ones for your business.

 June 5 and 6, 2025  Jean Laignelot

MODULE 5

Company Valuation and Financing

Get ready for your meeting with potential investors.

Learn how to evaluate a company and structure the financing needed in a sound manner to persuade investors.

 June 26 and 27, 2025  Laurent Gheeraert

C.

Company Acquisition

Master the essential aspects of business acquisition

Demystify the process of taking over a business, grasp the issues and various stages involved, understand its fiscal implications, and prepare for a safe acquisition.

MODULE 6

Company Acquisition

Prepare your company acquisition with complete peace of mind.

Understand the key stages of an acquisition by making technical terms accessible.

Identify the optimal acquisition structure and its financial and tax impacts.

Select the best pricing method by moving from a valuation to a sale price.

Determine ideal financing options to minimize the buyer's own capital contribution.

Understand the tax implications and master protective clauses in the sale agreement.

 November 26, 27 and 28, 2025  Arnaud Wala & Typhanie Afschrift
